

- [illegible]

LEARNING OBJECTIVES

1. Clinical presentation and history

2. Physical examination

3. Laboratory and diagnostic tests

4. Pathophysiology

5. Management

6. Prevention

7. Epidemiology

8. Social determinants of health

9. Communication

10. Professionalism

11. Ethics

12. Health care system

13. Research

14. Evidence-based medicine

15. Quality improvement

16. Patient safety

17. Health care law

18. Health care economics

19. Health care policy

20. Health care delivery

21. Health care reform

22. Health care access

23. Health care equity

24. Health care quality

25. Health care safety

26. Health care efficiency

27. Health care effectiveness

28. Health care value

29. Health care innovation

30. Health care transformation

31. Health care future

32. Health care vision

33. Health care mission

34. Health care vision

35. Health care mission

36. Health care vision

37. Health care mission

38. Health care vision

39. Health care mission

40. Health care vision

41. Health care mission

42. Health care vision

43. Health care mission

44. Health care vision

45. Health care mission

46. Health care vision

47. Health care mission

48. Health care vision

49. Health care mission

50. Health care vision

51. Health care mission

52. Health care vision

53. Health care mission

54. Health care vision

55. Health care mission

56. Health care vision

57. Health care mission

58. Health care vision

59. Health care mission

60. Health care vision

61. Health care mission

62. Health care vision

63. Health care mission

64. Health care vision

65. Health care mission

66. Health care vision

67. Health care mission

68. Health care vision

69. Health care mission

70. Health care vision

71. Health care mission

72. Health care vision

73. Health care mission

74. Health care vision

75. Health care mission
